

Eclisse, orange

Vico Magistretti

IP20   EAC  

LUMINAIRE

- Watt: **25W**
- Spannung (V): **220V-240V**
- Lichtstrom (lm): **170lm**

BESCHREIBUNG

Eclisse, designed by Vico Magistretti in 1965, won the Compasso d'Oro Award in 1967 and became an ambassador of Italian design worldwide. Eclisse is an avant-garde balance between form and function, design and utility. The concept's foundation lies in its functionality of adjusting the intensity of light through its rotating inner shade that "eclipses" the light source. In fact, with a fixed outer shell and a moveable inner shell the lamp can provide direct or diffuse light. A table lamp, it can also be wall mounted. Painted metal body available in white, red or orange with an on/off switch. Eclisse is part of the permanent collection of the most important design Museums, amongst many the MoMa in New York and the Triennale Design Museum in Milan.

ARTIKELNUMMER: 0028050A

FUNKTIONEN

- Artikelnummer: **0028050A**
- Farbe: **orange**
- Installation: **WandleuchteTischleuchte**
- Material: **steel, technopolymer**
- Serie: **Design Collection, Modern Classic**
- Anwendungsbereich: **Innenbeleuchtung**
- Einsatzbereich: **Residential**
- Lichtverteilung: **Diffuse Und Direkte**
- design: **Vico Magistretti**

DIMENSION

- Höhe: **cm 18**
- Breite: **cm 12**
- Durchmesser Fuß: **cm 12**
- Widerstand: **N/D**
- Glühdrahttest: **850°**

OHNE LEUCHTMITTEL

- Kategorie: **HALO**
- Anzahl: **1**
- Watt: **25W**
- Sockel: **E14**
- Baureihe: **A**

ALTERNATIVE LICHTQUELLEN

- Kategorie: **LED RETROFIT**
- Anzahl: **1**
- Watt: **4W**
- Sockel: **E14**

Eclisse PVD Black

BESCHREIBUNG

Eclisse, designed by Vico Magistretti in 1965, won the Compasso d'Oro Award in 1967 and became an ambassador of Italian design worldwide. Eclisse is an avant-garde balance between form and function, design and utility. The concept's foundation lies in its functionality of adjusting the intensity of light through its rotating inner shade that "eclipses" the light source. In fact, with a fixed outer shell and a moveable inner shell the lamp can provide direct or diffuse light.

A table lamp, it can also be wall mounted. Painted metal body available in white, red, orange or yellow and PVD version, made with an innovative and sustainable process of metal vacuum deposition ("sputtering"), available in black, brass, copper or mirror.

From the point of view of environmental-friendliness, "sputtering" is the absolutely cleanest coating technology for the type of metal used and because all emissions are abated, in particular those into the atmosphere of sulphuric acid and cyanides produced by galvanic processes.

Solid paint with up to 5% of solvents (compared to 75% of traditional products) is employed for the successive protective clear-coat phase.

The process generates very little waste and the resulting finish is particularly resistant over time.

Eclisse is part of the permanent collection of the most important design Museums, amongst many the MoMA in New York and the Triennale Design Museum in Milan.
