

PRODUKTDATENBLATT

Meteorite 35 erde

DESIGN:

Pio & Tito Toso
2014

MATERIAL:

Blown glass, technopolymer, steel

BESCHREIBUNG:

"Meteorite originates from the pursuit of a new sensibility, a new expressive language for lighting blown-glass. The starting point was our fancy for Venetian "beaten" glass, for the grinding effect, and for the strong charm of the "unfinished" feel that such kind of process brings to glass. We designed a special glass-blowing and grinding process, which allows to obtain impressive lighting depth in the illuminated object, and to make this beauty accessible or – we might say – democratic." Pio e Tito Toso. A family of lamps comprised of four different types, with a double-layer artistic glass diffuser obtained by means of the craft still glass blow moulding technique followed by frosting.

TECHNISCHES DATENBLATT

FUNKTIONEN

Produktname:	Meteorite 35 erde
Artikelnummer:	1706010A
Farbe:	Weiß
Material:	Blown glass, technopolymer, steel
Serie:	Design

DIMENSION

Höhe:	cm 177
Breite:	cm 35
Durchmesser Fuß:	cm 32
Widerstand:	850

DIMENSION

OHNE LEUCHTMITTEL

<input type="checkbox"/>	Kategorie:	HALO
	Anzahl:	1
	Lbs:	G95
	Watt:	150W
	Sockel:	E27
	Lichtstrom(lm):	2870lm
	Farbtemperatur (K):	2900K
	Baureihe:	A
